Board of Directors (1 Year)

As a child I appreciated the fact that my parents were farmers but still needed donated food. A different company provided that service. After retirement, I looked for a place where I could volunteer and be a productive member of society. During my time in the warehouse and outlying community distribution I gained an utmost appreciation for the service provided by both Roadrunner food bank and ECHO. I realized that I needed to do more so I volunteered as a Community Member of the ECHO Board of Directors.
